3D CAD reinvented

Fusion 360™ is the first 3D CAD, CAM, and CAE tool of its kind. It connects your entire product development process in a single cloud-based platform that works on both Mac and PC.

Design

Quickly iterate on design ideas with sculpting tools to explore form and modeling tools to create finishing features.

Engineer & simulate

Test fit and motion, perform simulations, create assemblies, make photorealistic renderings and animations.

CAM

Create toolpaths to machine your components or use the 3D printing workflow to create a prototype.

Collaborate

Bring design teams together in a hybrid environment that harnesses the power of the cloud when necessary and uses local resources when it makes sense.
