- A proven video management system
- Optimized for Axis' network video products
- Quick system setup and intuitive operation
- Efficient investigation and high definition identification
- Extensive support organization

Optimized for small- to mid-sized installations

AXIS Camera Station is the ideal solution to meet the needs for efficient surveillance of small- and midsized installations, such as retail shops, hotels, schools and manufacturing sites - a proven solution with more than 50,000 installations worldwide. It is designed to perfectly match Axis' wide range of network video products and product features to optimize system reliability.

Ease of operation in focus

A setup wizard with automatic camera discovery guides you through every step of the setup process. This allows the system to be up and running within minutes. AXIS Camera Station is developed with focus on ease of use and intuitive operation, ensuring that anyone can effectively manage incidents and quickly export high definition evidence. AXIS Camera Station allows the user to add useful functionality such as AXIS A8004‑VE Network Video Door Station for audiovisual identification and remote entry control, as well as AXIS C3003‑E Network Horn Speaker that enables an operator to remotely address people and deter unwanted activity.

Staying with our customers all the way

Axis' strong presence in the market with local sales and support contacts worldwide and the extensive language support offered by AXIS Camera Station secures a reliable and efficient operation - We stay with our customers all the way.
