## CHARGE ANY USB-ENABLED DEVICE IN YOUR CAR

With the MIXIT Metallic Car Charger, you can keep your devices fully charged while you're driving. Ideal for mobile users with an active, on-the-go lifestyle, this charger plugs directly into your car's DC power connector. You and your passengers will be able to charge smartphones, tablets, or other mobile devices, even when you're on the road.

## FASTER CHARGING

The MIXIT Metallic Car Charger always delivers the maximum amount of power required to charge your device--up to 2.4 amps. This means you'll be able to charge your device up to 40 percent faster, saving you hours of charge time. For example, the charger can take an iPad 4th generation tablet from zero to 100 percent charge in just 6.2 hours, compared to 10.3 hours with a regular 5-watt charger.

## UNIVERSAL COMPATIBILITY

Thanks to its versatile Ti chipset, the MIXIT Metallic Car Charger is compatible with nearly any device that charges via USB cable (sold separately). The chipset automatically recognizes devices when they're plugged in, so you'll be able to begin charging without any setup.

## SLEEK DESIGN

Thanks to its low-profile design, the charger plugs in to your car's dash without obstructing your buttons and dials. It is compact and lightweight enough to slip into a pocket or handbag. And with its stylish, metallic finish, it attractively complements your car's interior.

## RELIABLE CHARGING

Belkin chargers are rigorously engineered to protect your device while it is charging. The charger's intelligent circuitry measures voltage and automatically adjusts power output, ensuring that your device stays safe in the event of an unexpected power surge.

The charger is also protected by a Belkin Connected Equipment Warranty. If your device is damaged by an electrical charge while properly connected to the charger, Belkin will repair or replace it up to a value of \$2,500.

## At A Glance:

- Car charger plugs directly into your car's DC connector
- Charges your smartphone, tablet, or other mobile device up to 40 percent faster than ordinary 5-watt chargers
- Compatible with any USB charging cable (sold separately)
- Low-profile design blends with car interior
- Smart circuitry protects your device from power spikes
- \$2,500 Belkin Connected Equipment Warranty
