FEELS LIKE YOUR APPLE WATCH WITH ADDED DURABILITY

InvisiGlass Screen Protection is the best screen protector available, engineered for strength and clarity and tested to meet optometric standards. The result is a crystal clear screen protector that keeps your screen safe from damage while still giving you an incredible screen experience.

ADDED STRENGTH

InvisiGlass screen protectors are 100% real, flexible glass, engineered to a hardness rated at 9H. This exceptionally tough material is damage-resistant, which helps to prevent scratching.

ENGINEERED WITH FluidFlex TECHNOLOGY

Inflexible materials can be brittle, causing them to snap under pressure. InvisiGlass is engineered with FluidFlex technology which gives it a unique elasticity. This enables it to withstand and absorb the shock of impact without breaking, much like a tree or a tall building.

A NATIVE, NATURAL SCREEN EXPERIENCE

The flexible glass has been carefully manufactured to add strength while preserving the smooth feel of regular glass. It is also amazingly thin which preserves the sensitivity of the touchscreen. This ensures a glide and touchscreen-sensitivity that is almost identical to the naked screen.

MARKET LEADER IN CLARITY

Belkin screen protectors preserve the vibrant color, resonance and clarity of your screen so you can enjoy the brilliance of each and every pixel. To ensure our screen protectors are of market-leading clarity, we use the same testing methods as those used for eyeglasses by optometrists.

PRECISE APPLICATION

A precisely applied screen protector provides greater protection for your Apple Watch. InvisiGlass Screen Protection includes an included an easy align tray to add precision to any application. The tray helps to align the screen protector to your watch so precisely, it's hard to know it's even there.

ENHANCED PROTECTION

The touchscreen of your Apple Watch is the primary access route to the features and capabilities stored within. Protection of the screen not only prevents visual damage to keep your watch looking like new, but also preserves all-important functionality.

LIMITED LIFETIME WARRANTY

Every InvisiGlass Screen Protector is backed by a Limited Lifetime Warranty. So if your screen protector is ever scratched or damaged, send it back and we'll be happy to replace it.

- Rated 9H hardness for added strength
- Flexible glass feels like native screen
- Tested for optical clarity
- Includes easy align tray for precise application
- Protects screen from scratches and scuffs
- Engineered with FluidFlex technology to absorb shock
- Ultra-thin at 0.2mm to preserve touchscreen sensitivity
