CHARGE ANYWHERE

The Valet Charger is more than just a powerful 6700 mAh portable battery. A built-in Magnetic Charging Module offers a battery boost for the Apple Watch when on the go, while a USB port connects via Lightning cable* to simultaneously charge your iPhone. With 2 Amp total power, this 2-in-1 portable battery delivers 1 Amp to optimally charge the Apple Watch, and 1 Amp to charge your iPhone. The Valet Charger is the perfect partner to keep your devices charged, anywhere. *Cable not included

MULTIPLE RECHARGES

6700mAh of power means enough juice to recharge your Apple Watch eight times over without refueling the Valet Charger, or recharge your iPhone three times.

SHARED POWER

With one USB port, and one built-in Magnetic Charging Module for Apple Watch, you can share the Valet Charger 6700mAh battery between your devices, and charge both simultaneously.

SMART CHARGING

Smart chips inside the Valet Charger automatically detect the connected devices to begin charging instantly, ensuring optimal, safe charging in the shortest possible time.

FAST RECHARGING

The Valet Charger itself is recharged using the included micro-USB cable. When it does need a boost, simply connect it to a wall outlet or other power source via the cable provided, and it will recharge at 2.4A input. This means fast recharging between uses, to keep up with your busy lifestyle.

Main specifications:

Design

Number of simultaneously connected devices (max):	2
Colour of product:	Black, Silver, White
Housing material:	Aluminium
Charger compatibility:	Mobile phone/Smartphone, Tablet, MP3/MP4, GPS, E-book reader
