The much-anticipated 10x42 L IS WP is the first waterproof binocular to incorporate Canon's exclusive Image Stabilizer technology for steady, shake-free viewing. The high quality L series optics, featuring 2 Ultra-low Dispersion (UD) lens elements (on each side), deliver excellent correction for chromatic aberration. With a large lens diameter and a 4.2mm exit pupil diameter, this binocular provides an exceptionally bright view, even in low-light conditions. The 10x42 L IS WP binocular offers both the desired brightness and excellent waterproof capabilities, making it ideal for a host of activities including marine use, stargazing and wildlife observation - just to name a few.

## Features

- Canon's first waterproof IS Binocular.
- High performance L Lens with 2 Ultra-low Dispersion (UD) elements on each side.
- Doublet Field Flatteners for sharp, distortion-free images edge-to-edge.
- Bright field-of-view from a 4.2mm exit pupil diameter, the largest of any Canon IS Binocular.
- Wide angle rating from an apparent angle-of-view of 65°.
- One touch IS usage.
- Body components feature metallic coating to prevent fogging.
- Distinctive, easy grip design.

## Main specifications:

### Weight & dimensions

Width:	137 mm
Depth:	175.8 mm
Height:	85.4 mm
Weight:	1030 g

### Technical details

Prism type:	Porro II
Magnification:	10 x
Objective diameter:	42 mm
