The leather carry case provides complete coverage for the phone. The clear plastic window allows you to view the screen and provides easy access to the keys and buttons. The carry case has a removable belt clip on the back that rotates 360 degrees.

This case comes with a security cord. The ring on one end of the cord slides onto the D-ring on the back of the carry case. You can fasten the other end of the cord to a belt loop to secure the phone.
