The Cisco Unified IP Phone 7975G demonstrates the latest advances in VoIP telephony, including wideband audio support, backlit color touchscreen display, and an integrated Gigabit Ethernet port. It addresses the needs of the executive or major decision maker, administrative assistants, and those working with bandwidth-intensive applications on co-located PCs. This IP phone includes a large, backlit, easy-to-read color display for easy access to communication information, timesaving applications, and features such as date and time, calling party name, calling party number, digits dialed, and presence information. It also accommodates Extensible Markup Language (XML) applications that take advantage of the display. The phone provides direct access to eight telephone lines (or combination of lines, speed dials, and direct access to telephony features), five interactive soft keys that guide you through call features and functions, and an intuitive four-way (plus Select key) navigation cluster. A hands-free speakerphone and handset designed for high-fidelity wideband audio are standard, as is a built-in headset connection.

Main specifications:

Design

Colour of product: Black,Silver

Phone features

Speakerphone: Y

Dialer location: base

Call management

Caller ID: Y

Conference call: Y

Call forwarding: Y

Call waiting: Y

Explicit call transfer: Y

Management features

Volume control: Digital

Display

Display: LCD

Display resolution: 320 x 240 pixels

Display diagonal: 5.6 "

Display number of colours: 65536 colours

Ports & interfaces

Wireless connection: N

Headset connectivity: Y

Weight & dimensions

Weight: 1600 g

Other features

Voice codecs:	G.711a,G.722,G.729a,iLBC
VoIP protocols:	SCCP, SIP
Mac compatibility:	N
Dimensions (WxDxH):	267 x 152 x 203 mm
Networking features:	2x Ethernet (10/100Base-TX/1000Base-T), IEEE 802.1Q (VLAN), IEEE 802.1p, PoE
Wall mountable:	Y
Supported network protocols:	DHCP, TFTP
Security algorithms:	128-bit AES
