Cisco is the worldwide leader in networking that transforms how people connect, communicate, and collaborate. Their technology is changing the nature of work and the way we live. Founded in 1984, Cisco pioneered the development of Internet Protocol (IP)-based networking technologies. This tradition continues with the development of routing, switching, and other technologies such as application networking services, home networking, security, storage area networking, TelePresence systems, unified communications, video systems, and wireless.

Main specifications:

Networking

Ethernet interface type: 10 Gigabit Ethernet

Ethernet LAN data rates: 10000 Mbit/s

Ports & interfaces

SFP+ module slots quantity: 8

I/O ports: 8x 10GbE/FCoE

Performance

Compatibility: Cisco UCS 5108
