Video editing software that does it all!

Unleash your inner producer and realize your vision with powerful video editing software. Edit in HD video on the multi-track timeline, choose from over 1,800 video effects, and perfect your audio. With pro-caliber features like Split Screen video, Multi-camera editing, screen recording software, and more, you can edit movies like a pro with Pinnacle Studio Plus. When you're ready, burn DVDs complete with menus, upload videos directly to social media, or output to popular file formats. Explore the possibilities with Pinnacle Studio Plus.

Basic Color Grading

Stylize your image to set the tone and mood with new basic color grading controls, including color correction, color tuning, image tone curves, luminance and more. Create a sun-kissed scenario or an ice blue landscape with new color grading controls.

Three and four-point editing

Not only can you drag and drop your media to the timeline, but now precisely insert clips with new three and four-point editing. Mark the in and out points of your clip and identify the location on your timeline of where to place them for the ultimate level of flexibility and precision.

Selective Color

Bring your focus to the spotlight and highlight a single color in your picture, pushing everything else to the background in black and white. It's a truly unique effect to add to your next video.

MultiCam Capture: Video Capture and Screen Recorder

Record your screen and webcam simultaneously and create engaging tutorial videos. With unique screen recording software, you can easily capture video, system audio, and microphone sound in a single click and edit them together seamlessly with multi-camera editing.

Motion Tracking

Add moving text or graphics to a moving object. Mark your object, press play to track its motion, and then easily add the overlay of your choice.
