Small and stunning power.

Thinnest, lightest, smallest 15" mobile workstation with big performance. Featuring Intel® processors and a PremierColor 4K InfinityEdge display.

See the big picture, better than ever.

The new PremierColor InfinityEdge display offers a completely new level of eye-popping detail with 4K Ultra HD resolution and over 8 million pixels - three million more than a Retina display. The PremierColor panel guarantees you the unprecedented color fidelity of a 100% AdobeRGB minimum gamut display.

Elegant, innovative and efficient.

Feels good, looks even better

The InfinityEdge display offers virtually borderless viewing - cleverly fits a 15-inch display into the size of some 14-inch laptops. And the new industrial design with carbon fiber palm rest delivers rigidity, durability and cool-to-the-touch operations.

Easy office integration

Multitasking is a breeze with single cable docking, and large file transfers are quick and easy with Thunderbolt 3 connectivity.

Outstanding professional performance

Accelerated workflows: New 6th Gen Intel® Core i5 and i7 processors and the first-ever mobile Xeon processors provide the power to extract maximum performance from the demanding professional software you rely on to do your job.

Professional graphics: From rendering to complex modeling, you'll notice an incredible performance boost thanks to NVIDIA® Quadro M1000M graphics with 2GB memory.

Big storage for big jobs: Easily store, transfer and access large and complex 3D, multimedia and video project files with the speed and reliability of up to 2TB of storage and available Thunderbolt 3.

Your work can count on it

Independent Software Vendor (ISV) certification: Dell Precision Workstations are tested to ensure the high-performance applications you rely on every day run smoothly. Dell ISV-certifications cover the most popular independent software applications.

Reach maximum potential: The Dell Precision Optimizer, with SCCM centralized management, improves productivity and performance by fine-tuning your system beyond standard factory settings, on supported ISV applications.
