Secure. Sleek. Powerful

No one ever said security had to be boring. The Dell's most secure Ultrabook also happens to be one of the world's most beautiful. Our industry-leading security features Dell Data Protection, including comprehensive encryption, advanced authentication and malware prevention. Additionally, this lightweight 12" Ultrabook is now thinner and lighter than ever. Now, you don't have to choose between style and security. And with 6th Gen Intel® Core vPro processors, you can power right through that workflow.

Designed to impress. Built to last.

Style and structure intersect with premium materials, including a magnesium alloy chassis and LCD back, woven carbon fiber, a spill-proof keyboard, and a brilliant 12.5" screen. Choose an HD, FHD or FHD touch display with Corning® Gorilla® Glass NBT.
