Frequent travelers need to charge their mobile devices anywhere. The FUJITSU Car/Air DC Mini Adapter 80 doesn't add anything to your luggage weight, since it is one of the world's smallest adapters. Whether in a car or in a plane: charge your mobile system or phone with one device only.

### Mobility

- The Car/Air DC Mini Adapter 80 is perfect for usage in cars and planes where 12 V power supply is available
- Simply select the correct connector and use the charger for your tablet PC or notebook
- USB charging port for mobile devices (e.g. mobile phones)

### Security

The adapter comes with protection in case of

- short circuit
- over and under-voltage
- leakage current
- over temperature

The Car/Air DC Mini Adapter 80 interrupts charging immediately if the voltage on the line is not within the specified limits. Thus the connected devices will be safe from damages.

### Reliability

### Best quality and stability

- Constant current regulation ensures stable charging of batteries
- EmPower cable is included for charging in many airplanes during travelling
- Two changeable 19V plugs support most of the mobile devices
- Compliance with E-Mark for car usage and DO-160G standard for aviation

## Main specifications:

### Performance

Charger type:

Auto

Charger compatibility:	Mobile phone,MP3,MP4,Netbook,Notebook,Tablet
Power source type:	Cigar lighter,DC
USB 2.0 ports quantity:	1
Power protection features:	Over voltage,Overheating,Short circuit,Under voltage
Operating principle:	Contact
Basic device type:	Notebook
Certification:	DO-160G E-Mark

#### Design

Colour of product:	Black
LED indicators:	Y

#### Power

Input voltage:	12 - 15 V
Maximum output voltage:	19 V
AC adapter output current:	3.5 A
Maximum power:	67 W
Input current:	9 A

#### Weight & dimensions

Width:	64 mm
Depth:	49 mm
Height:	21 mm
Weight:	60 g

#### Other features

Charging connector:	Y
Connector(s):	19V Fujitsu N07, 19V Fujitsu N34
