Reach your full potential with Windows Server 2016 and Fujitsu
Combine the awesome power of Windows Server 2016 with PRIMERGY Server to stay agile and responsive in competitive markets, and be ready with excellent security for cloud-inspired business strategies.

Safeguard your business

- Safeguard your data across multiple devices with the built-in features of Windows Server 2016
- Benefit from embedded TPM 2.0 on PRIMERGY servers - and the lowest hardware failure rates on the market
- Add extra security with SURIENT, the FUJITSU Data Center Security Solution for highly secure, granular access concepts incl. biometric palm vein authentication
- And, ensure business continuity by choosing FUJITSU's maintenance and support services

Improve IT efficiency & productivity

- Windows Server 2016 is designed to deliver increased efficiency, with features including rolling upgrades, scale-out file server clusters and new storage offerings such as Storage Spaces Direct
- In combination with the record-breaking power and performance of PRIMERGY servers, you have the perfect foundation for efficient, productive computing

Ready for the cloud

- With Windows Server 2016, you can take advantage of external resources when it makes sense for your business
- Windows Server Containers and Hyper-V Containers give you tools for rapid iteration and lighter weight management
- Latest technology network connections for our PRIMERGY systems enable super-fast cloud deployments

What makes PRIMERGY Servers best for Microsoft Windows Server 2016

With a wide choice of PRIMERGY systems, ready-installed with your chosen Windows Server 2016 Edition and ready-licensed out of the box, you have a powerful foundation for your IT infrastructure - whatever your business challenges. It's all backed by a comprehensive network of Fujitsu partners providing full-service support, making Windows Server 2016 installations on leading-edge x86 PRIMERGY servers the ideal combination for your business.
