## Smart communications

This is efficient communication at its best thanks to VoIP functionality: make up to 3 parallel calls in brilliant HDSP sound and see online information e.g. from social media, with the high-quality VoIP and landline phone. Furthermore, with the Contacts Push online application you can upload your smartphone contacts directly to the handset.

- Up to 6 SIP accounts from different providers;
- Access to social networks such as Facebook;
- 1.8" (32 x 38 mm) TFT colour display with 2 colour schemes to choose from;
- Easy personalization of ringtones, screensaver, sound profiles;
- Simple, stylish interface; coloured icons and text-based menu;
- Large phonebook with search function for up to 200 entries;
- Long talk and standby time of up to 14/320 hours.

## The new ContactsPush app

Uploading phone contacts has never been easier!

Finally a quick and easy way to load contacts onto your VoIP and landline phone C530 IP: introducing ContactsPush, the complimentary Gigaset online application that allows you to transfer contacts directly from your smartphone. With a few simple clicks you can upload your smartphone contacts to your DECT handsets. Now that's innovation!

## Extend your network

Stay in touch effectively, all around the world

The VoIP functionality allows you to make up to 3 parallel calls - so you don't need separate lines for multitasking. You can easily switch between Internet and landline calls according to your needs. You can also add up to 6 SIP accounts from different providers and make free calls to Gigaset VoIP phones worldwide via Gigaset.net. In addition, you can access online information from social media platforms.

## Whatever you like

Easy personalisation makes phoning more fun

Customize your Gigaset C530 IP at your heart's delight.

It's so fast and simple to personalise your ringtone, screensaver and sound profiles according to your taste. An easy-to-use, stylish user interface feature coloured icons and a text-based menu, which makes browsing the colour display a real pleasure.

And there's always a little more

It's the user-friendly extras that make all the difference

The 1.8' TFT colour display makes using your phone so much more convenient. Choose from two colour schemes according to your personal taste. Phonebook space for up to 200 entries means easy access to names and numbers. You can also assign VIP contacts with a special ringtone and birthday reminders. Talk/standby time allow for up to 14/320 hours.

Up close with HDSP sound

Brilliant sound quality with that face-to-face feeling

Make sure you hear every word in crystal-clear sound with HDSP sound quality when making VoIP calls. Brilliant audio ensures genuinely enhanced sound, for an up close and personal feeling even when you're talking hands-free. In fact, with HDSP sound, you can expect double the quality of a normal phone call.

ECO DECT: Radiation-free

Save on energy and unnecessary costs

Energy-efficient power supply means that the Gigaset C530 IP is easier on the environment. Like all Gigaset cordless phones, it variably reduces the transmitting power from the handset to the base station depending on their distance apart. You can also decrease the transmitting power of the Gigaset base station by 80% - simply select ECO Mode. What's more, radiation-free ECO Mode Plus switches off the transmitting power whenever your phone is in standby.

Taking your calls

Let your phone take a message when you're not there

Expand your system with a 3-way answering machine that allows for individual outgoing messages to 3 numbers. 55 minutes of recording time means you can catch up on messages in your own time. The answering machine is simple to use via the handset.

More comfort anywhere in the home

Add additional handsets with full functionality

Save yourself the unnecessary stress of running after your phone. Instead, simply connect another handset to the base station. Up to six handsets can be added to the Gigaset C530 IP - so you can extend your range of movement according to your requirements. What's more; internal calls are possible between handsets.
