Digitize paper documents and integrate them into business processes at the touch of a button.

When you streamline how your business handles documents and information, you can save time and improve productivity. HP Digital Sending Software (DSS) 5.0 is a server-based solution that enhances digital sending from HP LaserJet MFPs, HP digital senders, and HP Scanjet network devices.

Now, you can easily incorporate paper documents into electronic processes. Digitize and send information quickly and securely to email, network folders, printers, fax services, Microsoft® SharePoint®, and more. And with a common administrative utility and end-user interface, you can use it across multiple devices and device types.

To purchase Digital Sending Software licenses and associated CarePacks please contact your HP representative or HP authorized reseller.
