Are you searching for a tower server to meet the requirements of your small to medium-sized growing business?

The HP ProLiant ML150 Gen9 Server is a tower server that delivers exceptional value for a business with a limited budget with a 24-inch chassis depth. Providing dual processor sockets, it provides essential performance with the Intel® Xeon® E5-2600 v3 processors. Built-in innovations that simplify server deployment and management, your business can continually reap these benefits on a daily basis, with expansion options that enable you to expand as needed, delivering increased business value. The HP ProLiant ML150 Gen9 Server provides efficiency and productivity for both the small to medium organization that is growing.
