The HP ProLiant XL230a Gen9 Server delivers 2P performance for your budget, while leveraging the Apollo 6000 System's modular flexibility and rack-scale efficiency.

This server features the latest Intel® Xeon® E5-2600 v3 series processors, increasing performance up to 70% and efficiency up to 36%. [1] At the same time, the server's 16 DIMM slots (512GB max) are ready for HP DDR4 SmartMemory to boost bandwidth up to 14% so you can see results faster. [2]

The modular HP Apollo a6000 Chassis accommodates up to 10 hot-swap server trays, with the flexibility to choose from the HP ProLiant XL230a Gen9 Server, the HP ProLiant XL220a Server, or a combination of server trays to meet workload needs while lowering TCO.

The Apollo 6000 Power Shelf drives rack scale power efficiency, while the HP Advanced Power Manager provides real-time power measurements and enables rack-level dynamic power capping.
