Are you looking for a 100% open source platform for storing, processing, and analyzing large volumes of data? Hortonworks Data Platform from HP can handle data from many sources and formats in a quick, easy, cost-effective manner. Providing a stable and highly extensible platform, Hortonworks Data Platform from HP makes it easier to integrate Apache Hadoop® with your existing data architectures, and increase the value of the data flowing through your business.

As the only completely open Apache Hadoop platform available, it integrates with and augments your existing best-of-breed applications and systems so you can gain value from your enterprise Big Data, with minimal changes to your data architectures. Hortonworks Data Platform from HP allows you to deploy Hadoop wherever you want it-from cloud or on-premises as an appliance, and across both Linux® and Windows®.

### Completely Open

• Hortonworks Data Platform from HP is designed for the enterprise, built with open source and tested for scale.

### Fundamentally Versatile

• Hortonworks Data Platform from HP is fundamentally versatile, providing linear, scalable storage and compute across a wide range of access methods, from batch and interactive to real time, search and streaming.

### Wholly Integrated

• Hortonworks Data Platform from HP is designed to integrate deeply and augment existing data center technologies while being deployable across a wide range of infrastructures.
