Are you looking for an efficient way to use VMware® and HP server systems in your IT infrastructure?

Together, HP and VMware have designed a highly efficient IT infrastructure powered by VMware software running on HP ProLiant Gen8 and Gen9 Server series. VMware vSphere® 5 Software helps you to transform your data centers into simplified cloud infrastructure and enables the next generation of flexible and reliable IT services. VMware vSphere 5 is ideal for organizations of all sizes. For more information on VMware vSphere 5 Software, please visit www.vmware.com/go/vsphere.

VMware ESXi is supported on a broad range of HP ProLiant DL, ML, and BladeSystem servers and is delivered with active HP ProLiant management and consolidated lifecycle management for a consistent, reliable ProLiant experience and management simplicity in virtual environments. For more information on HP customized images with active management for VMware ESXi, please visit www.hp.com/go/esxidownload.

Main specifications:
