## What's in the box

HP Data Protector Library extension with unlimited slots

## Summary

HP Data Protector Software automates high performance backup and recovery, from disk or tape, over unlimited distances, to enable 24x7 business continuity and improve IT resource utilization. Data Protector Software responds to the pressure for lower IT costs and greater operational efficiency by offering acquisition and deployment costs which are 30 - 70 % less than competition. The license model is very simple and easy to understand, helping to reduce complexity. Extensive scalability and features for continuous backup and recovery operations enable growth with a single product. A superb solution, no other Software can integrate better with the HP market-leading line of StorageWorks disk and tape family of products, as well as with other heterogeneous storage infrastructures. As an integral component of the fast-growing HP Software portfolio, which includes storage resource management, archiving, replication, and device management Software, Data Protector Software also fully integrates with the HP OpenView management solutions, allowing managing data protection as an essential element of an overall IT service. This solution offers the unique advantage of being able to source hardware, Software, and award winning service offerings from a single, trusted source. Data Protector Software simplifies the use of complex backup and recovery procedures with the fastest installation, automated routine tasks, and easy-to-use features. The centralized multi-site management easily allows implementing multi-site changes, adapting in real time to changing business requirements. Appropriate for medium and large companies in any industry, Data Protector Software is the ideal solution to reduce IT costs and complexity while remaining reliable and scalable to grow from single server environments to the largest distributed enterprise infrastructures.

## Main specifications:

### Technical details

Dimensions (WxDxH):	222.2 x 6.35 x 14.3 mm
Weight:	59 g
Software version:	6.00
Recovery point:	Last transaction to hours
Recovery time:	minutes to hours
