- Get value pricing on HP x86 servers (HP ProLiant and BladeSystem models) with a Windows version of your choice.
- Rely on one-stop ordering and single-source support.
- Gain flexible choices in operating system versions and server models.

Choosing a server just got easier. If you're like most people looking for a server solution, you want:

- Proven reliability and performance at an affordable price.
- Easy purchase and setup.
- Simplicity in system management tasks.
- Support when you need it the most.

HP ProLiant and Microsoft Windows bring together the world's leading server hardware and software innovations, applications, resources, and support to help you be more productive, achieve more with your investment, and keep your business running smoothly.

With teams of HP engineers and Microsoft engineers working closely together, we invest extensively to ensure that ProLiant Servers and Windows Server® software work together and run better, preventing problems, ensuring compatibility and optimizing performance. The HP MS ROK are designed and tested for HP servers, providing you with confidence in deploying a Broad range of ProLiant servers engineered and maximized to run Windows at its best. With the HP OEM versions, you will also receive 90-day free telephone support from the purchase date of the new server and license.
