HP iLO Advanced for BladeSystem incl 3yr Tech Support and Updates 1 Server Lic

Description

Smart remote server management without compromise. HP iLO Advanced or HP iLO Advanced for BladeSystem license, provides premium remote functionality such as graphical remote console with multi-user collaboration, video record/playback, and many more advanced features to support your enterprise datacenter. Available on all HP ProLiant servers. Please note the HP iLO Advanced license are visionless, meaning, regardless which version of iLO (iLO 2, iLO 3, iLO 4) you have enabled, the iLO Advanced license can be applied to all HP ProLiant servers. To learn more about the specific features and what the functionality of HP iLO Advanced can do for your business, please see the comparison tables in the HP Integrated Lights-Out Portfolio Datasheet. Not ready to purchase an HP iLO Advanced License? Try our 60 day FREE Trial License by visiting our Insight Management Evaluation License Program.

Sophisticated Remote Administration of Servers.

Simplify server setup. Significantly reduce cost associated with IT-related travel and unplanned downtime. Engage health monitoring and power and thermal control. For more information on iLO Licensing, visit www.hp.com/go/iLO.

Security.

After logging into HP Systems Insight Manager, automatically login to any connected iLO 2 management processor using HP SIM role based authentication. Enhanced user audit support with increased logging option for failed login attempts and new logging of client machine names. Authenticate direct members as well as members of nested groups within Active Directory.

Options.

Supported now on all new iLO 2 based HP ProLiant servers. Visit the Lights-Out Supported Servers web page for more information. New iLO Select Licenses now available with one-time activation key and future optional, upgrade keys. New Insight Control Environment Suites or iLO Power Management Packs are now available including ProLiant management capabilities such as iLO Select bundled with 24x7 technical support and software update services for ProLiant BL servers.
