The Dolphin 70e, Honeywell's latest enterprise digital assistant, successfully marries the size, style and usability of a consumer device with the reliability and longevity of a traditional rugged hand-held. Engineered with premium materials and clean lines, the form factor of the Dolphin 70e elegantly lends itself to personal device usage while also meeting the challenges found in the unpredictable surroundings of the mobile enterprise.

Along with the aesthetic details, the Dolphin 70e was also built to deliver years of reliable operation. Incorporating Corning Gorilla Glass, the device's touch screen is exceptionally resistant to damage. The IP67- rated housing protects against dust and water immersion and for added versatility, the Dolphin 70e can be operated in extreme temperatures as low as -20° C (-4°F) minimizing downtime associated with conditions.

Businesses can also capitalize on the flexible platform supplied by the Dolphin 70e which can be customized according to use case with Microsoft Windows or Google Android operating systems. The crystal clear 4.3" display can be seen in virtually any lighting condition, including outdoors, and is equipped with the same capacitive touch screen technology used in advanced smartphones, enabling the use of two-finger gestures for device operation. Further, the offering's integrated imager provides bar code scanning performance superior to that of the camera scanning applications that are currently available in the market. Compatible with Honeywell's turnkey remote management solution, Remote MasterMind, the Dolphin 70e can be tracked and managed in real time from any location, reducing the total cost of ownership incurred with mobile deployments.

Impeccably positioned where emotional elements and rational demands meet, the Dolphin 70e effortlessly enables enterprises to stay on trend without sacrificing performance.

Main specifications:

Display

Display diagonal:	4.3 "
Display resolution:	480 x 800 pixels
Touchscreen:	Y

Memory

Internal memory:	512 MB
Internal memory type:	RAM
Compatible memory cards:	MicroSD (TransFlash),SDHC
Flash memory:	1000 MB

Processor

Processor frequency:	1000 MHz
Processor family:	Instruments OMAP

GPS Performance

GPS (satellite):	N
------------------	---

Software

Operating system installed:	Android 4.0
Wireless LAN features	
Wi-Fi:	Y
Wi-Fi standards:	802.11a,802.11b,802.11g,802.11n
Security algorithms:	CCX v4,EAP-TLS,LEAP,PEAP,TKIP,WEP,WPA-PSK
Data transmission	
Bluetooth:	Y
Bluetooth version:	4.0
Camera	
Built-in camera:	Y
Megapixel:	5 MP
Auto focus:	Y
Built-in flash:	Y
Audio	
Built-in microphone:	Y
Speakers:	Y
Ports & interfaces	
Headphone outputs:	1
Operational conditions	
Storage temperature (T-T):	-25 - 70 °C
Operating relative humidity (H-H):	0 - 95 %
Operating temperature (T-T):	-20 - 50 °C
Power	
Battery capacity:	1670 mAh
Battery technology:	Lithium-Ion (Li-Ion)
Weight & dimensions	
Weight:	204 g
Width:	73 mm
Depth:	17.4 mm
Height:	134 mm
Technical details	
Colour of product:	Black
Vibrating alert:	Y
International Protection (IP) code:	IP67
