Honeywell's Dolphin

6110 is a stylish and reliable mobile computer that provides advanced data collection and real-time wireless communication for in-premise applications including price lookup/audits, inventory management, customer assistance, and merchandising.

Designed with ergonomics in mind, this pocket-sized mobile computer features an angled imager that allows users to view the screen while scanning a bar code.

Despite its stylish exterior, the Dolphin 6110 was built to withstand harsh conditions. This IP54-rated device can endure exposure to dust, dirt and splashing water, as well as accidental drops from distances as high as 1.2 meters. The high-performing Dolphin 6110 can sustain up to 500 tumbles from 1 meter, ensuring reliability for years to come. Integrated 802.11 a/b/g/n wireless connectivity provides users with access to critical data throughout the enterprise. A long-lasting battery minimizes the need to change the battery during an eight-hour shift, even in wireless, scan-intensive environments. Advanced security protocols ensure data accuracy and security. Users can also make phone calls using Voice over Internet Protocol (VoIP) technology, eliminating the need to carry additional devices.

Powered by Adaptus

®

6.0, the 6110 with the imager option delivers the broadest suite of advanced data capture capabilities, including linear and 2D bar code scanning, digital image capture, and intelligent signature capture, allowing users to increase efficiency and improve customer service.

Purpose built for in-premise applications, Dolphin 6110 provides mobile workers with the tools needed to streamline tasks, improve productivity, and maximize investment protection

Main specifications:

Display

Display diagonal:

2.8 "

Display resolution:

240 x 320 pixels

Touchscreen:	N
Display:	LCD
Display number of colours:	65536 colours
Memory	
Internal memory:	512 MB
Internal memory type:	RAM
Compatible memory cards:	MicroSDHC
Flash memory:	512 MB
Processor	
Processor frequency:	800 MHz
Processor family:	Instruments OMAP
Processor manufacturer:	Texas Instruments
GPS Performance	
GPS (satellite):	N
Software	
Operating system installed:	Windows Embedded Handheld 6.5.3
Wireless LAN features	
Wi-Fi:	Y
Wi-Fi standards:	802.11a,802.11b,802.11g,802.11n
Security algorithms:	802.1x RADIUS,CCX v4,EAP,EAP-TLS,EAP-TTLS,LEAP,MD5,PEAP,TKIP,WEP,WPA-PSK,WPA2
Data transmission	
Bluetooth:	Y
Data network:	Not supported
Bluetooth version:	2.0+EDR
Camera	
Built-in camera:	N
Audio	
Built-in microphone:	Y
Speakers:	Y
Ports & interfaces	
Headphone outputs:	1
RS-232 input ports:	1
Operational conditions	
Storage temperature (T-T):	-20 - 70 °C
Operating relative humidity (H-H):	0 - 95 %
Operating temperature (T-T):	-10 - 50 °C
Power	
Battery technology:	Lithium-Ion (Li-Ion)
Technical details	
Colour of product:	Grey,Silver
Phone function:	N
RFID reader:	N
