A shift in a cold environment is demanding - make it more productive with a hand-held purpose-built to get more done in the cold. Light enough for scan-intensive picking, yet able to operate in extremely cold environments, Honeywell's Tecton CS rugged hand-held computer, the successor to the MX7CS, takes cold chain computing leadership and turbocharges it with a fast PXA 320 processor running available Microsoft® Windows® Mobile 6.5 or CE 6.0 operating system.

- Better User Experience: Large keys ideal for gloved hands; bright defroster screens go from outdoor dock to dark freezer without condensation
- All-Around: Fits end user needs as a hand-held or vehicle-mount computer, with a 55 or 32 key backlit keypad, ToughTalk technology, and a specialized combination of advanced audio circuitry and noise-canceling features
- Rugged: Reduces downtime and lowers the total cost of ownership with an IP65-rated design that withstands multiple 6' drops to concrete and offers a cold-storage configuration
- Adaptus Imaging Technology: Reads linear and 2D bar codes, captures digital images, and enables electronic signature capture-allowing workers to do more with a single device
- Fast and Reliable Wireless Connectivity: Delivers full wireless coverage for applications inside and outside of the four walls, allowing real-time access to critical data
- Worry-Free Service Programs: Offers comprehensive, hassle-free protection on the device investment for up to five years after purchase, lowering the total cost of ownership
- Remote MasterMind Ready: Reduces total cost of ownership by providing a turnkey remote device management solution that easily manages and tracks usage of installed devices
