Purpose-built for transportation and logistics applications, the Dolphin 99EX mobile computer provides extreme durability, cutting-edge wireless technology, user-friendly ergonomics and multi-functional data capture for front-line workers operating in both indoor and outdoor environments.

Superior Durability

IP67-rated design withstands multiple 1.82 m (6 ft) drops to concrete and 2,000 1 m (3.28 ft) tumbles, for a lower total cost of ownership and decreased downtime.

Shift-PLUS Power Management

Powers real-time wireless and multimedia applications continuously for a full shift, eliminating the need to carry spare batteries or chargers.

High-Performance Data Collection

Do more with a single device: Adaptus Imaging Technology 6.0 enables quick reading of linear and 2D barcodes, as well as digital image and electronic signature capture.

Cutting-Edge Wireless Technology

Software-definable radio lets you switch between GSM and CDMA networks, as well as 802.11n Wi-Fi for faster, more reliable connections. (Also support legacy a/b/g protocols.)

Optimal Performance and Usability

Improves ease of use and worker efficiency with a large outdoor-viewable screen, multiple keypad options, a super fast CPU and smart sensors.

Remote MasterMind Ready

Reduces total cost of ownership by providing your organization with a turnkey remote device management solution that easily manages and tracks usage of installed devices.

Honeywell Repair Service Programs

Deliver the highest levels of productivity, device reliability and uptime for your mobile team.
