Make your iPad® Point of Service (POS) system easier to use for customers while also adding crucial security and robustness by pairing a SecureBack M Series iPad Enclosure with the Adjustable Kickstand.

iPad POS systems are providing a host of opportunities for businesses. Restaurants, hotels, spas and other hospitality industries are an especially ideal environment for this new iPad enclosure technology because it elevates customer service and customer engagement while also providing new opportunities for data mining.

But iPad POS systems do have some significant challenges. Only Kensington addresses the critical issues of security and robustness that the iPad POS environment demands.

The Kensington Adjustable Kickstand for SecureBack M Series Modular Enclosures allows you to add a convenient, adjustable kickstand to any SecureBack M Series Enclosure. The Kickstand provides a stable, adjustable way to keep the iPad standing upright for use by your customers to simplify typing and viewing. The Kickstand is rubberized to prevent the iPad from slipping and it provides 180⁰ of adjustability. The locking feature secures the kickstand to the enclosure, so you won't have to worry about unwanted removal.

When combined with a SecureBack M Series enclosure, you gain the ability to add security and robustness to any iPad POS system while improving the user experience.

- Makes typing and viewing easier for customers
- Compatible with SecureBack M Series Enclosures (sold separately)
- Provides 180⁰ of adjustability
- Rubberized to prevent slipping and increase stability
- Locks to the enclosure to prevent unauthorized removal
