### 4th Generation Intel® Core Processors

4th generation Intel® Core processors deliver the performance to increase productivity for your business. Devices turn on in an instant and are always up-to-date. You can multitask quickly and move effortlessly between applications, collaborate wirelessly in a high quality videoconference &mdash; all with the convenience of longer battery life. Plus, you can guard against identity theft and ensure safe access to your network with built-in security features. In fact, the only thing more amazing than an Intel Core processor-based PC is what your users will do with it.

### Precision Keyboard Enhanced for Windows 8

Full-sized and spill-resistant, the legendary ThinkPad ergonomic keyboard is renowned for its full array of keys, excellent feel, and TrackPoint® pointing device. And now it's optimized for Windows 8 with convenient multimedia buttons, LED status indicators, Function-lock capability, and immediate access to view apps. Plus, a larger, smooth trackpad with 5-point click integration &mdash; indicated by subtle bumps and stripes &mdash; can be configured multiple ways through Settings. Optional backlight makes working in dark environments effortless.

### Thin and Light

The ThinkPad T440 starts at just 4 lbs &mdash; and with a 0.8" profile at its thickest point, is mobile as well as powerful.

### 14" HD+ Display with Optional Multitouch

Configure your T440 with an HD+ (1600 x 900 resolution) LCD display with high brightness and enjoy a premium visual experience. For enhanced navigation configure your T440 with 10-point multitouch.

### Ultradurable Construction & MIL-SPEC Tested

Innovative roll-cage technology adds extra strength and rigidity to the notebook shell and top cover (carbon fiber top with magnesium bottom for maximum strength without adding weight). Military-specification testing validates the ruggedness, durability, and quality of ThinkPad products by testing against eight parameters: high pressure, humidity, vibration, high temperature, temperature shock, low pressure (15,000 ft), low temperature, and dust.

### Power Bridge Battery Delivering up to 17 hours Battery Life

The standard configuration of T440 includes 2 x 3-cell batteries, one internal and one swappable. Power Bridge allows you to swap the rear battery without powering down your system. This is much needed for long flights or travelers who are away from power sources for an extended period of time and can give you up to 17 hours of use without needing to plug in.

### VGA Port

A VGA port for projector connections in conference rooms is still a business must-have, and a native VGA means no dongles to buy/lose/replace.

### Dual Speakers with Dolby® Advanced Audio v2

Dolby® Advanced Audio is a suite of audio technologies that enable your ThinkPad to deliver a crisp, clear surround sound experience over its built-in stereo speakers. The technology increases audio clarity for VOIP applications, maximizes volume output without distortion, and improves dialogue clarity when watching videos.

### Integrated 720p HD Webcam

Crystal clear video, face tracking and keystroke noise suppression technology will help you web conference or chat like

you're really there. Dual digital array microphones ensure a premium audio experience.

#### Investment Protection

Assure worry-free enjoyment of your T440 with accidental damage protection, which keeps you covered in the event of accidental damage -- such as drops or spills -- that occur under normal working conditions.

#### Main specifications:

##### Design

|                    |           |
|--------------------|-----------|
| Product type:      | Ultrabook |
| Colour of product: | Black     |
| Form factor:       | Clamshell |

##### Processor

|                            |                    |
|----------------------------|--------------------|
| Processor frequency:       | 1.9 GHz            |
| Processor family:          | Intel Core i5-4xxx |
| Processor model:           | i5-4300U           |
| Processor boost frequency: | 2.9 GHz            |
| Processor cores:           | 2                  |
| Processor threads:         | 4                  |
| Processor cache:           | 3 MB               |
| Processor cache level:     | L3                 |

##### Memory

|                          |            |
|--------------------------|------------|
| Internal memory:         | 4 GB       |
| Internal memory type:    | DDR3-SDRAM |
| Memory clock speed:      | 1600 MHz   |
| Maximum internal memory: | 8 GB       |

##### Storage

|                               |                     |
|-------------------------------|---------------------|
| Total storage capacity:       | 128 GB              |
| Storage media:                | SSD                 |
| Number of SSDs installed:     | 1                   |
| Solid-state drive capacity:   | 128 GB              |
| Solid-state drive interfaces: | Serial ATA II       |
| Card reader integrated:       | Y                   |
| Compatible memory cards:      | MMC, SD, SDHC, SDXC |

##### Display

|                           |                       |
|---------------------------|-----------------------|
| Display diagonal:         | 14 "                  |
| Display resolution:       | 1366 x 768 pixels     |
| Touch sensitive screen:   | N                     |
| LED backlight:            | Y                     |
| Full HD:                  | N                     |
| Aspect ratio:             | 16:9                  |
| Display brightness:       | 200 cd/m <sup>2</sup> |
| Contrast ratio (typical): | 350:1                 |

##### Graphics

|                                  |                        |
|----------------------------------|------------------------|
| On-board graphics adapter model: | Intel HD Graphics 4400 |
|----------------------------------|------------------------|

##### Optical drive
