ALL THE TOOLS YOU NEED AT YOUR FINGERTIPS
CREATE iPad Pro keyboard case is the ultimate creativity and productivity toolkit. It holds everything together - your iPad Pro, Apple Pencil and a keyboard - in one snug package, so all your tools are in one place whenever you need them.

KEYBOARD FOR A PRO
Edge-to-edge layout of well-spaced keys ensures familiar laptop-like typing. Mechanical scissor keys are tuned for productivity with 1.4 mm key travel - an optimal depth for comfortable and responsive typing. A full row of iOS shortcut keys put iPad Pro controls at your fingertips - change volume, language and more - all without leaving the keyboard.

THE POWER OF SMART CONNECTOR
CREATE comes with the new generation of connectivity - Apple Smart Connector. This means you never need to charge your keyboard, it will source power directly from your iPad Pro. No more charging cables or worrying about battery life. Smart Connector also means that Bluetooth® pairing is a thing of the past. Just set iPad into a typing position - as soon as the two points of the Smart Connector touch - you are ready to type.

TYPE AWAY, DAY OR NIGHT
CREATE keyboard case has backlit keys with adjustable light levels. Choose from several backlight levels to get exactly the intensity of light you need. To manage the power smartly, CREATE can detect activity - 8 seconds after the last keyboard stroke, the keyboard will go into sleep mode, turning the backlighting off to save the iPad Pro battery.

APPLE PENCIL-FRIENDLY
We know iPad Pro has another important tool - Apple Pencil. CREATE is the perfect iPad Pro case if you use Apple Pencil. An integrated holder provides a safe and convenient place to keep Apple Pencil with you at all times. And a special drawing angle makes it easy to sketch or take notes.

FRONT AND BACK PROTECTION
CREATE is the iPad Pro case that carefully envelopes your iPad for all-around protection against bumps, scratches and spills. Outer technical fabric is soft to touch, yet resistant to spills and can be wiped clean. On the inside, a lightweight polycarbonate frame and a keyboard module provide structural integrity without weighing down your iPad Pro.

Main specifications:

Design
Colour of product:	Black
Cover:	Y
