It's the Windows you know, only better.

You're already an expert.

Windows 10 is so familiar and easy to use, you'll feel like an expert. The Start Menu is back in an expanded form, plus we'll bring over your pinned apps and favorites so they're ready and waiting for you.

It starts up and resumes fast, has more built-in security to help keep you safe, and is designed to work with software and hardware you already have.

Millions of people are already using Windows 10.

The Windows Insider Program is a global community of fans who love Windows and want to help make it better. Insiders see the operating system in its earliest stages, and play a role in shaping it. Their feedback has contributed to the best Windows ever.

The web that works the way you do.

Windows 10 comes with Microsoft Edge, an all-new browser that's built to give you a better web experience. Write or type notes directly on webpages and share them with others, read online articles free of distraction, and save your favorite reads for later access. And with Cortana enabled, you get instant access to key actions—like making reservations or reading reviews—without leaving the page you're on.

Multi-doing helps you get to “done“ faster.

Easily snap up to four apps in place and see all open tasks in a single view. You can even create virtual desktops when you need more space or want to group things by project.

Windows Store is your one-stop shop.

Introducing the new Windows Store, a unified shopping experience across every Windows 10 device. Browse the store on your PC, tablet, or phone and easily purchase great digital content including apps, games, music, movies and TV shows.
