## Outlook

Easily manage your email, calendar, contacts, and tasks. Push email support keeps your inbox up to date, conversation view groups related messages, and calendars can be viewed side-by-side for planning.

## Word

Create and share professional-looking documents with state-of-the-art editing, reviewing, and sharing tools. The new Design tab provides quick access to features, and Smart Lookup shows relevant contextual information from the web directly inside Word.

## Excel

Analyze and visualize your data in new and intuitive ways with a fresh user interface plus your favorite keyboard shortcuts. Leverage features like Analysis Toolpak, Slicers, and Formula Builder to save time, so you can focus on insights.

## PowerPoint

Create, collaborate, and effectively present your ideas with new slide transitions and an improved Animations task pane. Threaded comments alongside your slides help you incorporate feedback into your presentations. And Presenter View displays the current slide, next slide, speaker notes, and a timer on your Mac, while projecting only the presentation to your audience on the big screen.

## OneNote

It's your very own digital notebook, so you can keep notes, ideas, web pages, photos, even audio and video all in one place. Whether you're at home, in the office, or on the move, you can take it all with you wherever you go while sharing and collaborating with others.

## Your stuff anytime, anywhere

Whether you're working on your Mac, iPhone, or iPad, you'll have instant access to your documents anytime, anywhere with OneDrive cloud storage.

## The Microsoft Difference

We'll get you up and running

We're the company that built Office, so we know it better than anybody. No matter what help you may need with downloading or installing Office, we've got the expertise you need. We'll give you the support you need until your software is up and running.
