Windows 10 is your partner in making things happen. Get fast start-ups, a familiar yet expanded Start menu, and great new ways to get stuff done even across multiple devices. You'll also love the innovative features like an all-new browser built for online action, plus Cortana, the personal digital assistant who helps you across your day.

The Best Windows yet

Windows 10 is designed to go with you seamlessly from one device to another. It's fast and responsive. You even get free chat or phone support from real people. With Windows 10, it's easier than ever to do great things.

It just works

Windows 10 combines the Windows you already know and adds great improvements you'll love. Technologies like InstantGo let you boot up and resume quickly. And Windows 10 has more built-in security features than ever to help protect against malicious software.

Multi-doing

Multi-task like a master with the ability to snap four things on the screen at once. Screen getting crowded? Create virtual desktops to get more space and work with just the items you want. Plus, all your notifications and key settings are collected on one easy-to-reach screen.

Microsoft Edge

It's the all-new browser designed to make the web work the way you do. Write or type directly on webpages and share your mark-ups with others. You'll like the reading view that clears away distractions. There's also an improved address bar to help you find things faster.

Continuum

The best screen is always the one you're on, because Windows 10 optimizes your experience for your activity and device. Onscreen features adapt for easy navigation and apps scale smoothly from the smallest to the largest displays.

Uniquely yours

Your Windows 10 device recognizes you and acknowledges your presence in truly personal ways. With Windows Hello, your device greets you by name and lights up in recognition, waving you through log-in and freeing you from having to remember or type in a password.

Gaming & Xbox

Play your Xbox One games on your Windows 10 PC, laptop, or tablet. Use the Game DVR feature to record your greatest hero moves and send to your friends instantly, without leaving your game.

Cortana

Cortana is your truly personal digital assistant who works across all your Windows 10 devices to help you get things done. By learning more about you over time, Cortana becomes more useful every day, staying transparent and keeping your trust.

Main specifications:

License

License quantity: 1 license(s)

System requirements

Minimum hard disk space: 20 GB
Minimum RAM: 1 GB
Minimum processor speed: 1 GHz
Recommended RAM: 2048 MB
