Build your future with Windows Server 2019

No matter where you want to take your organization, get there with Windows Server 2019-the operating system that bridges on-premises environments with Azure services enabling hybrid scenarios and maximizing existing investments.

Get the most out of Windows Server

Windows Server 2019 is the operating system that bridges on-premises environments with Azure, adding additional layers of security while helping you modernize your applications and infrastructure.

Hybrid capabilities with Azure

Extend your datacenter to Azure to maximize your investments and gain new hybrid capabilities.

Advanced multilayer security

Elevate your security posture by protecting the datacenter, starting with the operating system.

Faster innovation for applications

Enable the creation of cloud-native apps, and modernize traditional apps using containers and microservices.

Unprecedented hyper-converged infrastructure

Evolve your datacenter infrastructure to achieve greater efficiency and security.
