PaperPort 14 is our popular scanning and document management software application designed for home office use. An easy-to-use combination of traditional file cabinet and digital document desktop, PaperPort 14 enables you to scan, organize, find, and share all of your documents and photos from your PC.

PaperPort 14 enhances the capabilities of your scanner or all-in-one device to quickly transform paper - mail, photos, legal paperwork, tax information, forms, bills, receipts warranties, and other important documents - into high-quality, searchable PDF files with the click of a button. It even puts all the PDF files on your desktop in clearly marked, color-coded folders, so information is always at your fingertips.

PaperPort Anywhere: Access your Documents Anytime, Anywhere Using any Device

PaperPort Anywhere, our new service for secure document access, provides the benefits of your own document website in the cloud, while delivering free mobile applications with PaperPort's proven capabilities for desktop document management on the PC.

PaperPort Anywhere connects seamlessly to your PaperPort desktop to deliver anytime-anywhere access to your most important folders, files, documents, and photos via the convenience of popular web browsers for PC and Mac. You can manage your free PaperPort Anywhere account - up to 1 GB of storage with more available - from home, on the road, or wherever it is most convenient for you.

With PaperPort Anywhere, you can search and view documents by thumbnail, snippets, or list; browse PaperPort 14 desktop folders; create and manage cloud-only folders, upload new files from any computer and much more.

PaperPort Anywhere: Intelligent Mobile Applications for Users on the Go

To support users who are looking to manage documents using their mobile devices, PaperPort 14 in conjunction with PaperPort Anywhere now provides mobile applications for iPhone, iPad, and Android devices. Using these mobile applications, you can browse by folder, search by document content or name, view documents, and take pictures and upload documents - all from the convenience of a mobile device.
