Performance in the rain, below freezing, with gloves, for 14 hours.

The Toughpad® FZ-E1 is the world's most rugged 5-inch tablet and a whole lot more pairing military-grade toughness and enterprise-class mobile computing power with Windows® Embedded 8.1 handheld OS.

Now mobile workers in the most demanding environments can have all the computing power they need in a handheld tablet small enough to drop in a pocket. Built on the rock-solid foundation of the Windows Embedded 8.1 Handheld OS, the FZ-E1 lets businesses leverage their existing investments in enterprise applications without sacrificing performance and ruggedness.

And it is seriously rugged. Thirty minutes underwater rugged. Ten foot drops onto solid concrete rugged. Built-in heater for -4° F weather rugged. Whether you throw it in a toolbox or literally take it into battle, the FZ-E1 can handle whatever comes its way.
