Forward Thinking.

iPhone 5s is purposefully imagined. Meticulously considered. Precision crafted. It's not just a product of what's technologically possible. But what's technologically useful. It's not just what's next. But what should be next.

The most advanced technology all leads up to this.

iPhone 5 set a precedent, with an amazing amount of technology in a remarkably thin, light design. iPhone 5s builds on that achievement with Touch ID - a fingerprint identity sensor. An A7 chip with 64-bit architecture. An even more impressive iSight camera. And ultrafast LTE wireless.

A beautifully crafted phone deserves a beautifully crafted case.

The iPhone 5s Case is precisely designed to fit iPhone perfectly. Made from premium leather, it looks elegant and feels luxurious. And inside, a soft, color-matched microfiber lining helps protect your iPhone 5s.
