The Complete Solution:
The DuraCase is a one-handed, barcode scanning solution. It fits like a rubberized glove, coupling your scanner and mobile into one device while charging simultaneously. It also provides additional protection without compromising the convenient small size of your handheld device.

DuraCase is designed for on-the-go workforces that want handheld devices in their mobile field. Running around to get orders done and meet customers' demands inevitably leads to slipups, meeting dirt and germs while on the job. With the DuraCase's Elastomeric (rubber) casing and antimicrobial material, you can prevent scratches and bacteria from tainting your scanner or mobile device.

Ideal for mobile workers who are looking to use a handheld device and scanner, protect their devices, and prefer the convenience of a single charging device.
- Available for Apple® iPod touch® for 5th & 6th generation, Samsung J3/J5, Samsung Galaxy S7
- Encloses and protects both Socket Mobile's 800 Series barcode scanner and mobile device with a durable Elastomeric (rubber) case
- Integrates connectors from both devices directly into the case for dual charging
- Features magnetic contacts for ease of docking
- Made with antimicrobial material for ease of cleaning and extra protection against potentially harmful microbes
- Designed & made in USA

DuraCase
The DuraCase is made of rubberized material which increases drop protection and durability to both the handheld device and the 800 Series Scanner. It shields both devices from scratches and other damaging debris anywhere they go.
