IT security products have become as complex as the networks they're trying to secure. At Sophos we know that the solution to complexity is not more complexity. We tackle security challenges with clarity and confidence, knowing that simple security is better security.

Products That Work
Our products allow you to secure every endpoint of your network, from laptops to virtual desktops and servers, to web and email traffic and mobile devices. What's more, securing these devices is made possible through products that fit your precise needs. We ensure your network's security by providing the one thing no one else can: Simplicity.

(Real) help is there when you need it
Our support staff is independently audited and approved by SCP (Service Capability & Performance Support Standard). Our follow-the-sun support operations (UK, U.S., Australia) provide 24/7 English-only support. Additional support offices in Germany, France, Spain, Italy, Japan and the Philippines means you can also speak to a support technician who speaks your language.
