This USB charging station offers a high-powered solution for keeping your mobile devices powered and ready for use. It's compatible with a wide range of tablets and smartphones, and features built-in safety measures to help protect against damage to your mobile devices.

High-powered charging
The charging station can deliver 48 watts of power in total, providing 2.4 amps of power per port. That means you can charge four tablets at once, and every port can provide the power each device needs.

One charger for all of your mobile devices
The charger supports USB Battery Charging Specification 1.2, which ensures compatibility with a broad range of mobile devices, including the Apple iPhone and iPad, the Microsoft® Surface tablet, the Samsung Galaxy Tab, Android devices and more.

Dedicated charging
This all-in-one charger is perfect for charging multiple devices during meetings in a boardroom or conference room. It gives you and your co-workers access to charging when it's needed. Plus, consolidating your USB devices onto a single multi-port USB charger offers a more efficient solution and saves space. You don't need to use multiple wall outlets or power bars.

The compact, metal enclosure is extremely durable and offers simple operation, using an integrated on/off power button that turns all ports on and off. For further flexibility, the charge station includes a bracket for wall-mounted installations.

Protection for your devices
The USB charging station features built-in safety measures to ensure that all of your devices are protected against damage from overheating, overvoltage, overcurrent or short circuiting. If the 48-watt limit is exceeded, the power being sent to the connected devices will turn off, and the charger will reset itself until the load is reduced to safe levels.

The charger also includes an LED indicator beside each port to notify you of a short circuit, while the affected port will shut down until you power-cycle the charger.

The ST4CU424EU is backed by StarTech.com's 2-year warranty and free lifetime technical support.

Main specifications:

Performance
Charger type:	Indoor
Charger compatibility:	Smartphone,Tablet
Power source type:	AC
USB 2.0 ports quantity:	4
Wall mountable:	Y

Operating principle:	Contact
RoHS compliance:	Y
Certification:	CE, FCC, GS, UL, PSE

Design
Colour of product:	Black
LED indicators:	Power

Power
Input voltage:	100 - 240 V
Maximum output voltage:	12 V
AC adapter output current:	4 A
Input current:	1.5 A
Plug type:	Type M

Operational conditions
Operating temperature (T-T):	5 - 35 °C
Storage temperature (T-T):	-20 - 50 °C
Operating relative humidity (H-H):	20 - 80 %

Weight & dimensions
Width:	60 mm
Depth:	95 mm
Height:	25 mm
Weight:	128 g
Package width:	103 mm
Package depth:	165 mm
Package height:	91 mm
Package weight:	583 g

Packaging content
Included power plug types:	EU
Wall mounting kit:	Y

Other features
Material:	Aluminium
