SEE MORE, DO MORE, ACHIEVE MORE

With the super thin and light Tecra Z50-A laptop, you can see more on the 39.6 cm (15.6") non-reflective screen, do more with powerful Intel® Core processors - and achieve more using full-size ports. Weighing under 1.8 kg, with a clean design and long-lasting battery, the Z50-A can easily be used for all-day productivity. Whether you're sharing a presentation or populating a spreadsheet, the Tecra Z50-A is ultra-responsive and performs at speed. You can even connect to all your peripherals, using the optional docking station. Add to that high-level security and manageability technologies, and you're always ready to see, do and achieve more with the Tecra Z50-A.

DESIGNED FOR BUSINESS

The Tecra Z50-A is ready to meet your business demands. Starting at a light 1.7kg and highly robust, it's the perfect companion as you move between desks and meeting spaces. Even without an extended battery, you get a long-lasting 10 hours on a single charge. And if you're working in a patch of sunlight, you won't see any glare on the large 39.6 cm (15.6") non-reflective HD or Full HD screen*. So it's really convenient to type emails or create documents at any time - even in dimly-lit conditions, using the illuminated keyboard.

MADE FOR MULTI-TASKING

With Intel® Core processors, the Z50-A has all the power and drive you need to move between multiple tasks. And with high-performance SSDs and HDDs inside, the Tecra Z50-A offers plenty of storage, faster speeds and higher responsiveness from the second you boot-up to the minute you shut-down. There's no compromise, so you can run all of your business applications with ease.

FULLY CONNECTED

The Tecra Z50-A is packed with full-size ports, so you won't need any special adapters to work more flexibly. You can transfer data to other devices much faster, using three of the latest USB 3.0 ports. Or share your presentations in high-resolution brilliance, with HDMI. Plus, it's easy to connect to monitors and displays with RGB. Gigabit LAN also allows fast access to your local network, while support for LTE gives you the freedom to work wirelessly. So you can be more productive anywhere. Connecting to your peripherals is fast and simple with the optional docking solution, which aligns with the other models in Toshiba's latest business line-up. The SD card slot boosts storage too.

YOU CAN DEPEND ON IT

The ultra-durable Tecra Z50-A was designed to withstand the pressures of professional life and meet Toshiba's quality standards. So it's passed the rigorous HALT (Highly Accelerated Lifestyle Test) assessment, which simulates 3 years of use. The independent German test institute, TÜV Rheinland® has also drop-tested this laptop up to 76 cm, and tested the keyboard for spill-resistance up to 30ml. So even if you accidentally spill your drink, you have time to shut down and protect your data*. With its light yet strong magnesium chassis, the Z50-A is highly durable too, so you can be sure of a better return on your investment.

SECURE AND EASY TO MANAGE

The Z50-A is built for business, and comes loaded with tried-and-tested security and management features. There's the self-encrypted drives and Trusted Platform Module (TPM) to safeguard the critical data on your local storage. And even

if your Z50-A needs to be updated, the IT department can do it at any time, with Intel Active Management Technology (AMT). The standard fingerprint reader makes it easy and secure to log on to your PC too, while the 3D sensor knows to take care of your data if your laptop falls.

BUSINESS IMPROVEMENTS ALL ROUND

Toshiba is constantly improving its models to help meet more of your business needs. So we've added silent cooling and better speakers to the design to make the Z50-A more durable and user-friendly. With a larger HD screen and improved backlit keyboard, plus larger Accupoint and touchpad, it's easier to view your laptop and navigate your way around it too.

SYNERGY ACROSS DEVICES

The Tecra Z50-A shares many features with the latest business line-up from Toshiba, to ensure consistency across your company - no matter which models you choose. So you can easily access all of your peripherals using a wide range of ports, with the common docking station. The Z50-A also comes with dongle-free connectivity in the form of HDMI, RGB, Gigabit LAN and three USB 3.0 ports for added convenience and flexibility. All Toshiba laptops share the same software image, for easy customisation in one go. Plus, the fingerprint reader, non-CSV display, webcam, magnesium chassis, Accupoint and docking connector all come as standard too.

*Availability and configuration may vary by model and country.

** Spill-resistant keyboards help protect your data from accidental spills up to 30 ml, allowing you 3 minutes shut down time to save your data

Main specifications:

Design

Product type:	Notebook
Colour of product:	Grey, Metallic
Form factor:	Clamshell

Processor

Processor frequency:	1.7 GHz
Processor family:	Intel Core i5-4xxx
Processor model:	i5-4210U
Processor boost frequency:	2.7 GHz
Processor cores:	2
Processor threads:	4
System bus rate:	5 GT/s
Processor cache:	3 MB
Processor socket:	BGA1168
Processor cache level:	L3

Memory

Internal memory:	8 GB
Internal memory type:	DDR3L-SDRAM
Memory clock speed:	1600 MHz
Memory layout (slots x size):	1 x 8 GB
Memory slots:	2x SO-DIMM
Maximum internal memory:	16 GB
Maximum internal memory (64-bit):	16 GB
Memory form factor:	SO-DIMM

Storage

Total storage capacity:	256 GB
Storage media:	SSD
Number of SSDs installed:	1
Solid-state drive capacity:	256 GB
Card reader integrated:	Y
Compatible memory cards:	MMC, SD, SDHC, SDXC

Display

Display diagonal:	15.6 "
Display resolution:	1920 x 1080 pixels
Touch sensitive screen:	N
LED backlight:	Y
Full HD:	Y
Aspect ratio:	16:9
Display response rise/fall:	17 ms

Graphics
