Xerox Mobile Print Cloud makes it possible for employees and guests to print to your printers without having to connect to their corporate network. Printing can be done from any smartphone, tablet, laptop or PC by simply emailing documents to a Xerox Mobile Print Cloud printer directly or by using one of the mobile printing apps available for iOS or Android.

Now available to be sold in "print device" license packs. With these new packs, you can enable the number of printers identified as part of the pack, e.g., a 5 pack allows 5 printers to be enabled. Customers can add any number of devices they need by purchasing more device packs. Additionally, there are no limits on the number of jobs the customer is allowed to print. Each pack expires one year from activation.
