The Rugged Messenger keyboard provides you with a laptop-like experience while working on your device. Its tough polycarbonate construction helps protect your investment from drops, the contents of your backpack, and other hazards. With its long battery life, multi-device pairing, and wireless connectivity, the Rugged Messenger gives you the freedom to take your device on the road-for work or play-anywhere, anytime.

Dual Functionality:
As a keyboard and case, the Rugged Messenger combines protection and productivity.

Rugged Layers of Protection:
Tough polycarbonate layers and durable construction protect your device from impact and corner damage and can withstand drops up to 6.6 feet.

Two Versatile Modes:
The Rugged Messenger is both a keyboard and a case which means you get protection and productivity. Protect your investment while making the most of it.

Multi-Device Pairing and Wireless Connectivity:
This keyboard toggles between two devices at the same time and allows you to switch back and forth instantly. Plus, there are no wires to get tangled between your devices.

Laptop-Style Keys:
The Rugged Messenger keyboard provides a comfortable, natural typing experience, instead of cramped pecking on a screen keyboard.

Rechargeable Battery:
You can type up to two years between charges*. The sleep/wake function also helps preserve battery life when the keyboard is not in use.
