The Motorola MC3190-G with gun grip and WLAN connectivity brings cost-effective mobility and user comfort to key-based applications within the four walls. The rugged and ergonomic MC3190-G offers advanced computing power and data capture capabilities, enhanced security and enterprise class motion sensing capabilities. MC3000 users will require virtually no training on the MC3190-G. Because the MC3000, MC3190-G and many other Motorola mobile computers share a common architectural platform, porting existing applications to the MC3190-G is fast and easy. And compatibility with existing MC3000 and MC3100 accessories provides a seamless upgrade path to the latest in mobile computing.
