Building on the successful MC3000, the new Motorola MC3190 brings cost-effective mobility and user comfort to key-based applications within the four walls. The rugged and ergonomic MC3190 offers wireless connectivity, advanced computing power and data capture capabilities, enhanced security and enterprise class motion sensing capabilities. MC3000 users will require virtually no training on the MC3190. Because the MC3000, MC3190 and many other Motorola mobile computers share a common architectural platform, porting existing applications to the MC3190 is fast and easy. And compatibility with existing MC3000 accessories provides a seamless upgrade path to the latest in mobile computing.
